THREAD SETS

The consumer brand of AMANN

THREAD, COLOUR, IMAGINATION –
METTLER THREADS MAKE
YOUR

sewing dreams

COME TRUE.

Mettler offers a large selection of threads in the best processing quality for all requirements and demands. Find your style in the wide variety of impressive colours and let your imagination take flight - because Mettler threads offer endless application possibilities for all creative minds! The large selection of attractive kits and thread cases also leaves nothing to be desired.

The history of today's internationally active manufacturer of high-quality sewing and embroidery threads began in 1883 in Switzerland, when the Mettler brand was founded. Many years later - in Germany and as part of the Amann Group - the sewing thread manufacturer established itself as a force to be reckoned within the world of threads.

Today, the company supplies more than 30 countries with high-quality threads for a wide variety of applications: whether for sewing, embroidery, quilting or overlocking - the large selection of synthetic and natural threads in various colours, lengths, and strengths appeals to commercial and industrial customers as well as end consumers worldwide.

SEWING IS LIKE
PERFORMING

magic

SEWING

Threads that set your imagination free.

The wide range of different threads in a variety of colours, surfaces, looks, and effects allows the realization of all creative projects. The high quality and excellent sewability of the threads guarantee long-lasting results that impress.

QUILTING

Quilt creations that bear your signature.

New contrasts, colour combinations and effects - with sewing threads from Mettler, everyone can find their very own style when quilting. The cotton threads are extremely tear-resistant and glide effortlessly through even firm layers of fabric - by machine or by hand.

EMBROIDERY

Embroidery is the window to your imagination.

Discover a blaze of colour that will bring your embroidery fantasies to life! Our embroidery threads not only score with an extraordinary range of brilliant colours, but they also impress with better elongation, exceptional tensile strength and extreme resilience.

OVERLOCKING

Overlocking - assembling what belongs together.

Our specialists among the sewing threads for overlocking master overlock stitches with ease. For outstanding filigree seams, the following applies: if you want to sew evenly, trouble-free and resiliently, you are exactly right with the fine and tearproof overlocking threads from Mettler.

SILK-FINISH COTTON 50 KITS

THREADS AND
colours
THAT SET YOUR
IMAGINATION FREE.

SILK-FINISH COTTON 50 100% mercerized cotton

The all-rounder among the cotton threads

SILK-FINISH COTTON (MULTI) 50 is Mettler's cotton all-rounder and is ideal for quilting, sewing, and matt embroidery. The thread impresses with a luxuriously soft effect and a supple feel. A mercerization process during the thread production makes the sewing thread more tearproof, low-shrink, and iron-proof.

TODAY

DENIM DOC 70% polyester. 30% cotton

Makes jeans look better

Thanks to its perfect combination of polyester core and cotton covering, DENIM DOC is the perfect thread for denim seams and darning. Closing, topstitching, and serging seams succeed particularly well with it. Excellent results can also be achieved when DENIM DOC is used as needle thread for matt embroideries.

SERAFLEX® 100% PTT (polytrimethylene terephthalate)

Fantastic - elastic

SERAFLEX is the perfect sewing thread for highly elastic seams on all stretchy fabrics. It makes especially the straight stitch extremely stretchable, in the best case even a doubling of the seam elasticity can be achieved compared to seams with conventional sewing threads (elongation of approx. 65%). Note: SERAFLEX should be used both as needle and bobbin thread and exclusively in straight stitch with the thread tension set as loose as possible.

Slight colour deviations cannot be ruled out.

SILK-FINISH COTTON 40 100% mercerized cotton

Perfect for patchwork

SILK-FINISH COTTON 40 is excellently suited for patchwork and quilting projects. Since this thread is somewhat thicker, you can achieve particularly beautiful decorative seams and impressive embroidery patterns with it; especially for extravagant cross-stitch patterns. In addition, SILK-FINISH COTTON 40 is ideal for sewing; the mercerization process during the thread production makes the sewing thread more tearproof, low-shrink, and iron-proof.

POLY SHEEN® KITS

THE WORLD IS YOUR CANVAS
AND YOU CAN

embroider

YOUR REALITY

POLY SHEEN® (MULTI) 100% trilobal polyester

Shiny appearance for your embroideries

POLY SHEEN (MULTI) is the classic among Mettler embroidery threads. Thanks to its enormously high tensile strength and abrasion resistance, this thread is excellent for embroidery and unbeatable on heavily used textiles. The gloss is particularly beautiful with POLY SHEEN (MULTI) - the trilobal filament cross-section of the thread enlarges the thread surface and thus enables a higher light reflection than with conventional embroidery and decorative sewing threads.

METALLIC 55% polyester. 45% polyamide

Conjuring up brilliant effects

METALLIC is the perfect thread for impressive special effects. Thanks to its metallic-looking finish, it gives all creations a special touch and by its intense interplay of light and shade, an eye-catching 3D effect occurs. As METALLIC is a wrapped yarn, its processing speed is a bit lower compared to conventional thread.
